

# OBERWERK

THE WORLD'S LEADING SUPPLIER OF HIGH-POWER BINOCULARS

## Ultra Series

The Oberwerk Ultra Series are our finest fixed-power binoculars, and include the hand-holdable 7x50C, equipped with a compass that shows heading in degrees, the 10x50, the mid-size 15x70 and 20x70 ED, and the giant 25x100 ED. These binoculars feature very rugged mil-spec construction, have precise individual focus, and are waterproof and nitrogen-filled. All models have incredible sharpness across the entire field of view, and the two ED models feature views free of chromatic aberration (false-color fringing).

All models include the Oberwerk Heavy-Duty L Adapter, except the 25x100 ED, which has a built-in mount that attaches directly to an Oberwerk 5000 quick-release plate. The 25x100 ED delivers the very same high-quality view as the much more expensive BT-100XL-ED binocular telescope (equipped with 22mm eyepieces). The 7x50C and 10x50 include a rugged padded case, the larger models come with our exclusive Heavy-Duty aluminum-frame case.

[NOT TO SCALE]

Oberwerk Heavy-Duty L Adapter Included.
